

## Oasis

Peach PRC

I've never read the Bible  
But I've smoked a page or two  
The fruit stall in the mall  
As close I've come to worship  
We planted gods for fruit

I've been talking with creatures of another kind  
I'd be blessed to find in church  
Why would I wait for Heaven  
When just outside it's a technicoloured Earth?

This is magic  
Polychromatic  
Opalescent, the sun sets fluorescent  
This is magic  
Polychromatic  
The place that I inhabit's a prismatic planet  
And this is oasis

Got friends that I'd miss dearly  
The faeries and the streets  
The feather of the common dove  
Is green and iridescent violet  
Sounds fictional to me

I've been talking with creatures of another kind  
I'd be blessed to find in church  
Why would I wait for Heaven  
When just outside it's a technicoloured Earth?

This is magic  
Polychromatic  
Opalescent, the sun sets fluorescent  
This is magic  
Polychromatic  
The place that I inhabit's a prismatic planet  
And this is oasis

The place that I inhabit's a prismatic planet  
And this is oasis  
The place that I inhabit's a prismatic planet  
And this is oasis
