

Symptomatic

Peach PRC

Don't tell my doctor that I'm day drinking again
Cause he'll say it's cause I've got a problem keeping friends
He says I fill the void with boys and overspend
But I think he likes me, maybe I'm a narcissist

So I think I'm cured
This time I'm sure
It's different than before

And he said hey, I know you're okay
But don't throw out your meds cause you had a good day
He said don't put all your eggs in one basket
Just cause you saw the world through some peach coloured glasses
It's all just symptomatic

It's all just symptomatic
(Hey, I know you're ok, don't throw out your meds cause you had a good day)
(It's all just symptomatic)

I tried some crystals I was told would fix me up
Cause my solar plexus had a hole that needed love
Call me a skeptic, but I kept it to myself
Think amphetamine's the only crystal that'd help

So I think I'm cured
This time I'm sure
It's different than before

And he said hey, I know you're okay
But don't throw out your meds cause you had a good day
He said don't put all your eggs in one basket
Just cause you saw the world through some peach coloured glasses
It's all just symptomatic

It's all just symptomatic
(Hey, I know you're ok, don't throw out your meds cause you had a good day)
(It's all just symptomatic)

Doc you're no fun
You just sedate me
I guess I'm crazy oh
Under my tongue
Self-medicated
Had a good day

He said hey, I know you're okay
But don't throw out your meds cause you had a good day
He said don't put all your eggs in one basket
Just cause you saw the world through some peach coloured glasses
It's all just symptomatic

Symptomatic
He says I'm manic, maybe I'm manic
(It's all just symptomatic)
Doc you're no fun
You just sedate me
I guess I'm crazy oh

It's all just symptomatic
