

Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in

Love me or don't  
I don't take buses no more  
I don't do rushin' no more  
Where did he go  
Mama don't trust him no more  
Mama don't love him no more  
Knees on the floor  
I wish our house was a home  
I wish my brother would stop  
Being so cold  
Mama ain't perfect I know  
Can we just work with her tho  
I gotta go, I gotta chase, I been in a race, I dropped out of school  
I never could say, it's minimum wage, I hustled and stayed inside of the booth  
There ain't no way I'm getting to you  
I don't see change like everyone do  
I don't see love inside of ya soul, I'm hoping to God that we see it soon

Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in

Take away, all our pain  
Got my people, they losing their way  
If I save it, and I wait  
I could never break off on my way  
Feel like I should speak up and say some  
Losing all my patience let's wake up  
Maybe I should tell you that I love you more  
Gotta learn to live without the things you want

But I got the juice in my system  
And I started using my wisdom  
See I don't nothin bout nothin  
See I just know something bout business  
And all I been seeing is winners  
And all of my family sinners  
I'm falling, I feel like failing  
I'm tripping, I'm failing I'm failing I'm running back

Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in  
Breath in breath out, let your love come shinin' in
