Peach Tree Rascals

I don't know and I never did
I'm on a road that'll never end
All my control flying with the wind
You never know where you never been

I leave the world with you
I leave the world with you
I leave the world with you
I leave the world with you

The kind of drug I would never do
I fell in love with the way she moves
I took a trip and I found the truth
At the end of the day love is all the same

Ooh, ooh, ooh-ooh-ooh-ooh
Ooh, ooh-ooh, ooh-ooh-ooh-ooh

Can you walk the walk and can talk the talk nowadays it don't feel the same
Let talkers talk, 'cause they don't know too much, I sit back and never throw shade

Might drop the top, I still got no car, so my baby driving my way
She in a halter top, she just picked me up, I might fall in love like today
Might drive miles and miles just to see her smile, might carve it onto my face

Get my life in line, and idolize the righteous idols stuck in my brain
See no lies you look at my face, see her eyes the world becomes fake
Only soul that make me feel safe, I got folks who hear what I'm saying

So damn if I say
That I ain't no GOAT, that I ain't no great
That I ain't on dro, I ain't no fake
I ain't no hoe, I ain't no saint
So tell 'em I want smoke, tell 'em I want change
If you talk better talk to my face
Paper tab that'll put you in space
Never talk if it ain't your case
Let me know what you say

The kind of drug I would never do
I fell in love with the way she moves
I took a trip and I found the truth
At the end of the day love is all the same

Ooh, ooh, ooh-ooh-ooh-ooh
Ooh, ooh-ooh, ooh-ooh-ooh-ooh

You're something that I've been waiting for
You're something that I've been waiting for
