

Woke up feelin' so cold  
I don't wanna go no more  
I don't wanna learn no code  
In a class, didn't pass so I dipped home  
I just wanna feel somethin'  
I just wanna feel your skin  
Missin' them days you went  
To my crib down the street

There's something about this windin' road  
All on your own, I'm cruisin' slow  
And if I ever lose control  
What's wrong is wrong, you told me so

Winter came quick, that shit not fair  
Hoodie on so I don't fix my hair  
Videos, I still feel you there  
Every night you are not in my bed  
Money come slow, that shit not fair  
Take a deep breath, we're in mountains  
It's a cold world, motherfuckers don't care at all, at all

Don't fill my cup, I can't take much  
I'm so in love, I can't give up  
I fall so high, I don't know why  
I fall so high, I fall so

No, I don't feel the same  
When worlds just fade to grey  
We always tend to stray from what we got  
Strawberry lemonade to sweeten up my days  
We always tend to stray from what we got

Gun is on safety, scared I won't make it  
Too far gone, I'm gone so don't save me  
One step more, I'm off it, don't wake me up  
I just rolled up  
And even when the school shit starts to slow up  
I'm hoping that my dad's love never froze up  
My brother mix lean with the lemon soda  
We keep growing apart as we getting older  
And how I'm gon' change if I ain't change yet  
I'll still be the same if I'm famous  
I'll still be the one to help out sometimes  
Even with darkness all on my mind, mama I

Sometimes, I'm down on my self  
Sometimes, I think they can't tell  
Sometimes, neglecting my health  
Sunrise, I'm loving myself  
Sometimes, I'm down on my self  
Sometimes, I think they can't tell  
Sometimes, neglecting my health  
Sunrise, I'm loving myself

There's something about this windin' road  
All on your own, I'm cruisin' slow

And if I ever lose control  
What's wrong is wrong, you told me so

Winter came quick, that shit not fair  
Hoodie on so I don't fix my hair  
Videos, I still feel you there  
Every night you are not in my bed  
Money come slow, that shit not fair  
Take a deep breath, we're in mountains  
It's a cold world, motherfuckers don't care at all, at all

Losing my way, but they can never cloud my shine  
My shine away, fly away  
Losing my way, but they can never cloud my shine  
My shine away, fly away  
Losing my way, but they can never cloud my shine  
My shine away, fly away

Drivin' through unknown  
Only I know where I'll go  
I can't feel no way no more  
Drivin' through unknown  
Only I know where I'll go  
I can't feel no way no more  
Drivin' through unknown  
Only I know where I'll go  
I can't feel no way no more
