

My minds been up and running
Think it's runnin' away from something
And that's something I could never seem to figure out
My minds been up and running
Think it's runnin' away from something
And that's something I could never seem to figure out
Lost out in the open
Waters nearly frozen
Don't know where the coast is
Dive into the ocean

Crawling back again
Don't know what's the move
But I can't wait no more

Running out of time
Running out of time
Running out of time
Running out of time
Running out of time
Running out of time
Running out of time
Running out of time

Wake up, I'm losin'
I'm holdin, I'm fallin'
I'm hopin', I'm waiting
We're wastin'
Wake up, I'm losin
I'm holdin, I'm fallin
I'm hopin', I'm waiting
We're wastin'
