

Song From Hell

Peach Tree Rascals

Hold on my hand sweet darling, we can get away
Baby, don't you take my love for granted, don't you let it fade
Hold on my hand sweet darling, we can get away
Baby, don't you take my love for granted, don't you let it fade

Baby, I'm violet tinting all of my windows
We put 'em up and heat the box with the indo
We on our way to outer space, they wanna put us back in place
But we strapped in and floating away
I know devil's working harder to stop this
But all it do is put more fuel the rockets
We on our way to outer space, they wanna put us back in place
But we strapped in and floating away

Hold on my hand sweet darling, we can get away
Baby, don't you take my love for granted, don't you let it fade
Hold on my hand sweet darling, we can get away
Baby, don't you take my love for granted, don't you let it fade

Okay, I'm
Okay, I'm talking shit, hopped up in and brought you in
Future filled with cars and cribs, a cautious life you wanted in
I'll hold you down though, but I can't be there for like half that time
And half the time I act like nothing wrong but something wrong
and that shit stick in my mind
It stay in my mind and eventually, it goes into yours, 'cause that's how it works
So welcome to hell or welcome to heaven, the choice is yours
The carousel's on fire, I wonder who gon' put it out
'Cause I ain't doing shit but spreading word of mouth, that's word of mouth, my baby

Hold on my hand sweet darling, we can get away
Baby, don't you take my love for granted, don't you let it fade
(don't let it fade out)
Hold on my hand sweet darling, we can get away
Baby, don't you take my love for granted, don't you let it fade
(don't let it fade out)

Hold up, baby, I think you should hold on
Show up when the world is getting colder
Sorry baby, you know life a rollercoaster
On a rollercoaster, on rollercoaster
Hold up, baby, I think you should hold on
Show up when the world is getting colder
Sorry baby, you know life a rollercoaster

On a rollercoaster, on a rollercoaster
