

# Get It Back

Pearl Jam

On the side of the road  
Lost and alone  
To get it back

Much farther to go  
So far from home  
To get it back

Frozen in time  
Turn on a dime  
To get it back

Try to reach you before winter comes  
Always a place for you in my heart

You're not alone  
All used up  
I'd give anything to talk to you

The prodigal son  
The only one  
To get it back

The mother and child  
They're lost for a while  
They want you back  
Stare at the sun  
Won't hurt anyone  
To get it back

Try to reach you before winter comes  
Always a place for you in my heart

You're not alone  
All used up  
I'd give anything to talk to you

Since you went away  
Hard to find my place  
Since you went away  
Hard to find my place

Since you went away  
Since you went away  
Since you went away  
Since you went away
