

# Everybody's Got Pain

Pearls Before Swine

When you're out wandering  
In the morning rain  
And the sky falls down around you  
Like a blanket of pain  
Just listen for the footsteps  
All around you in the rain  
Everybody's got pain  
[Listen for the others]  
Everybody's got pain  
[Listen for your brothers]  
When your fog lifts  
And you're up so high  
And after all this time you see  
The beautiful blue sky  
Just listen for the others  
They're still behind you in the rain  
Everybody's got pain  
[Listen for the others]  
Everybody's got pain  
[Listen for your brothers]  
Sometimes you get blinded by the freedom  
In your own eyes  
But freedom just ain't freedom  
Unless you spread it wide  
'Cause if everybody doesn't have it  
Yours is just a looser chain  
Everybody's got pain  
Everybody's got pain
