

# Naptime

Pears

Skippin' out at just 16  
I'll rest my head in the Park  
And by laundry machines  
It fuckin' ruled til it went bad  
I didn't miss my mom  
Didn't miss my dad

I'll go back home when I am ready  
Me and my bed are going steady  
Frame by frame we've coincided

Snuggled in a comfy trap  
Receive attention undivided  
The days and nights all overlap

It's always time to take a nap  
It's time to take a nap (time to take a nap)  
It's time to take a nap (time to take a nap)  
It's time to take a nap (time to take a nap)  
It's time to take a nap (time to take a... nap)

I am a king but I sleep in a twin  
Embarrassed by the condition it's in  
It doesn't matter cause it doesn't bug my teddy  
Me and my bed, sweaty

Years alone I've witnessed horrors (witnessed horrors)  
In and outside of my mind  
Pull the fitted over corners (over corners)  
The sheets defeat  
The ties that bind

It's always time to take a nap  
It's time to take a nap (time to take a nap)  
It's time to take a nap (time to take a nap)  
It's time to take a nap (time to take a nap)  
It's time to take a nap (time to take a... nap)
