

# The Flu

Pears

Vomit still remains in the back of my throat  
So I just turn and spit it in the pocket of my coat  
Sit and puke my guts out for five minutes straight  
It shoots into the toilet splashing in my face

I got the flu  
I got the flu  
I got the flu  
I got the flu

Somebody get me a carbonated drink  
'Cause I feel so empty I can't think  
Getting so sick of Gatorade  
Feelin' so sick I'm going insane

I got the flu  
I got the flu  
I got the flu  
I got the flu

I got the flu  
I got the flu  
I got the flu  
I got the flu  
I got the flu  
I got the flu  
I got the flu  
I got the flu
