Angel

Pebbles

You're my angel
My angel

You were like an angel
And I think they all should know
That you're now an angel
Now that you're living with our Lord

You were everything that I know to be right
You were a guiding light, with the time that you had
Never will we forget you, you brought us so much joy
Into our lives, and you showed us how to love

We had each other then
Wish you'd shared your pain, maybe then
You'd still be here
We never knew your pains
Wished you'd let us in, maybe then
You'd still be here, 'cause

You were like an angel
And I think they all should know
That you're now an angel
Now that you're living with our Lord
You were like an angel
And I think they all should know
(You're my angel)
That you're now an angel
Now that you're living with our Lord

You were everything, so sweet and so kind
You were that guiding light on so many nights
Never stop missing you
You stay on my mind, now it's hard to not cry

We had each other then
Wish you'd shared your pain, maybe then
You'd still be here
We never knew your fears
Wish you'd let us in, maybe then
You'd still be here, 'cause

You were like an angel
(Oh, you were)
And I think they all should know
(You're my angel)
That you're now an angel
Now that you're living with our Lord
(Angel)
You were like an angel
(Said you're my angel)
And I think they all should know
(I think they all should know) (You're my angel)
That you're now an angel
(You are my angel)
Now that you're living with our Lord
(Said you're my angel)

You were like an angel
(Angel)
And I think they all should know
(Never will we forget you) (You're my angel)
That you're now an angel
(Said you're my angel)
Now that you're living with our Lord
(Living with our Lord)

Angel
Sweet angel
