First Step (In The Right Direction)

Pebbles

I'm taking my first step
My first step in the right direction, baby

Ooh yeah

We were trying not to lose the fantasy
What we need is to keep the mystery
I can see it, our private paradise (so nice)
Don't you worry, our love will melt the ice (we'll melt the ice, baby)

And I can tell that it won't be long
And I can feel love is coming strong, hey

I took the first step in the right direction
You're the only one I really need
First step in the right direction for me (for me)
Whoa baby, you see, together with me
First step in the right direction, uh

Sometimes you wanna get just what you see (that's me, uh)
Too bad it doesn't come with a guarantee (there's no such thing)

And I can tell that it won't be long
And I can feel love is coming strong, hey

I took the first step in the right direction
You're the only one I really need
First step in the right direction for me (for me)
Whoa baby, you see, together with me

Let's take it slow, there's no need to rush
Because it feels like it's serious (serious)

I took the first step in the right direction
You're the only one I really need
First step in the right direction for me (for me)
Whoa whoa baby, you see (baby, baby, baby, baby, baby)
First step in the right direction
You're the only one I really need
First step in the right direction for me (for me)
For me
You're the first step in the right direction
You're the only one I really need
First step in the right direction for me (for me)
(Baby, baby, baby, baby, baby)
First...

You're the first step in the right
You're the first step in the right direction
(Don't you know you're my first step)
First
You're the first step in the right
You're the first step in the right direction (for me)
Oh, first
You're the first step in the right
You're the first step in the right direction
(Don't you know you're my first step)

First
You're the first step in the right
You're the first step in the right direction (for me)

First step in the right direction
You're the only one I really need
First step in the right direction for me (for me)
Oh you, are the first step in the right direction
You're the only one I really need
First step in the right direction for me (for me)
