

# Show Me

Pebbles

Boy, all you have to do is show me that you love me  
Boy, all you have to do is show me that you love me

Hey there, my baby  
I see you when you're watching me  
And I wanna know what is on your mind  
Now baby, you know you need to tell your lady something  
And when you do, it'll be fine

Ooh, I like the way you touch me there  
And baby, run your fingers through my hair  
Don't ever be ashamed to let me know  
Or show me, just show me  
Every night and day it feels so special  
Even when you're far away from this  
You'll never be ashamed  
Boy, let me know or show me, just show me

I like it, baby, when (I like it)  
Oh, I like it, baby, when (Boy, all you have to do)  
I like it, baby, when you (Show me that you love me)
