

Without You

PeeWee Longway

(SwagDot, mmm)

You say you a gangster, but you know that ain't true
She know my whole gang, gang covered in blue
She told me that she love me, man, that shit out the blue
And tell them suckers keep that sucker shit, they throw it out the roof

You know a nigga goin' crazy without you
You know a nigga goin' crazy without you
You know a nigga goin' crazy without you
You know a nigga goin' crazy without you

He go cuckoo, he go crazy, he go nuts for that pussy
This shit outrageous, got contagious, he do too much for that pussy
First she wake up and then go take a bath, unthaw the turkey bacon
She text my phone and then cook it when I come through like a home invasion
And like bend over, baby, arch it
That big Bentayga truck, your man know the color, so I parked it
She got too deep, she said she love me, that made me depart
She keep on askin' why I'm leavin', I'm just playin' my part
I can't switch her down to a penny, my bitch study the art
She thick like Venus, Serena, my bae just raised the bar
Got Megan thousand Bottega slides in the double R
The way she put that shit on, lil' bitch, don't play with her

You say you a gangster, but you know that ain't true
She know my whole gang, gang covered in blue
She told me that she love me, man, that shit out the blue
And tell them suckers keep that sucker shit, they throw it out the roof

You know a nigga goin' crazy without you
You know a nigga goin' crazy without you
You know a nigga goin' crazy without you
You know a nigga goin' crazy without you

You keep tellin' that bitch you gangster, man, you know that ain't true
I might give that bitch some dick, she fall in love out the blue
I bought my bitch a Birkin bag, now she don't know Jimmy Choo
I take your bitch, can't get her back, now what the broke boy gon' do?
Neighborhood, she know I'm gang, gang, throw the set out the roof
I fucked the bitch and told the gang, gang, know my crew switcheroo, she sti
ll my lil' boo
That chopper smoke like hookahs at Cru, I dare you to move
Suzy Choosey still with lil' dude, like, bitch, keep it cool
Trappin', puttin' the fentanyl on food for the Loub' baby shoes
Popped a bean, that G6 a fool, she wet like a pool
Show you what them big racks gon' do when your safe stacked with blues
I just might go big facts on dude and tell you the truth (Longway, bitch)

You say you a gangster, but you know that ain't true
She know my whole gang, gang covered in blue
She told me that she love me, man, that shit out the blue
And tell them suckers keep that sucker shit, they throw it out the roof

You know a nigga goin' crazy without you
You know a nigga goin' crazy without you
You know a nigga goin' crazy without you

You know a nigga goin' crazy without you
