

# Break Up A Bit

Peg Parnevik

You say that you know me  
No-no-no you don't  
You say that you love me  
Shu-shu-shut your mouth  
No, I used to think you were holy  
But now I, now I know

High on all the ways you move  
Your antics got me sober  
I've been feeling something, baby  
Since we said it's over

We've been up here before  
Slam across slamming doors  
Tangled up on the floor  
I know I cannot let you go  
We've been up here before  
Starting fights, starting wars  
And I still come back for more  
I know I cannot let you go

We've been up here before  
I know, I know I cannot let you go  
We've been up here before  
I know, I know I cannot let you go  
And we break, break up a bit  
Falling back then break, break up a bit

Call me up at a party  
Say, said you're just a friend  
But you're not even holy  
Nah, nah, we're more than that  
No, I used to think we were rollin'  
Used to think we were golden

High on all the ways you move  
Your antics got me sober  
I've been feeling something, baby  
Since we said it's over

We've been up here before  
Slam across slamming doors  
Tangled up on the floor  
I know I cannot let you go  
We've been up here before  
Starting fights, starting wars  
And I still come back for more  
I know I cannot let you go

We've been up here before  
I know, I know I cannot let you go  
We've been up here before  
I know, I know I cannot let you go  
And we break, break up a bit  
Falling back then break, break up a bit  
We break, break up a bit  
Falling back then break, break up a bit

We break up a bit  
We break up a bit

We've been up here before  
Slam across slamming doors  
Tangled up on the floor  
I know I cannot let you go  
We've been up here before  
Starting fights, starting wars  
And I still come back for more  
I know I cannot let you go

And we break, break up a bit  
Falling back then break, break up a bit  
And we've been up here before  
Starting fights, starting wars  
And I still come back for more  
I know I cannot let you go
