

# My Name

Peg Parnevik

(You don't know me, you just know my)

Pardon my French  
I just had to say  
That you're gonna hurt yourself  
If you're coming for me  
You're playing with fire  
Like you're not afraid  
Assuming that I can't tell  
You're gunning for me

Running your mouth, running your mouth  
This is not the place or time  
Oh no, let yourself out now  
(I'm crazy)

Watch it, I'm not the one to mess with  
Say it was a game, you lose, I win  
Now you don't know me, you just know  
When I walk in, they're whispering and talking  
'Bout this and who I'm friends with  
Ain't it funny? You don't know me, you just know my name

Oh, you got an ego  
Got something to say  
You're doing the most, the most for a minute of fame  
I'm never the one to make scene  
But you make it difficult for me  
Now I can't stop it  
You got what you wanted

You keep on running your mouth, running your mouth  
This is not the place or time  
Oh no, let yourself out now  
(I'm crazy)

Watch it, I'm not the one to mess with  
Say it was a game, you lose, I win  
Now you don't know me, you just know  
When I walk in, they're whispering and talking  
'Bout this and who I'm fuckin'  
Ain't it funny? You don't know me, you just know my name

You love to hate somebody  
Oh, you can keep it coming  
It's just amusing to me  
I think it's really funny  
I know you really love me  
You're so amusing to me  
You don't know me, you just know my  
Name
