

# Regret It

Peg Parnevik

I take the last bus to see you  
Because I need you  
'Cause when I've had a couple drinks then I believe you  
I start to miss you  
Though I should diss you  
When I feel lonely 4AM, just wanna kiss you

If you take the time  
If you buy me wine  
Then I might be here tomorrow in the morning  
Maybe I could stay the night  
But I think that I

I will probably regret it by tomorrow (Yeah)  
But right now I don't care  
For a moment I forget about my sorrow (Yeah)  
Damn, I just want you there  
I will probably regret it, but if  
If you take the time  
If you buy me wine  
Then I might stay, but I'll probably regret it by tomorrow (Yeah)  
But right now I don't care

I keep my mind busy all day  
But just like always  
The more you're gone, the more I want you and you're always  
You know exactly when to call me  
And now I found myself here standing in your hallway

If you take the time  
If you buy me wine  
Then I might be here tomorrow in the morning  
Maybe I could stay the night  
But I think that I

I will probably regret it by tomorrow (Yeah)  
But right now I don't care  
For a moment I forget about my sorrow (Yeah)  
Damn, I just want you there  
I will probably regret it, but if  
If you take the time  
If you buy me wine  
Then I might stay, but I'll probably regret it by tomorrow (Yeah)  
But right now I don't care

I know what you think, what you're thinking 'bout  
Know I said I shouldn't but I think I might  
We could spend the night  
No, it's not for life  
I will probably regret it by tomorrow  
For a moment I forget about my sorrows

I will probably regret it, but if  
If you take the time  
If you buy me wine  
Then I might stay but I'll probably regret it by tomorrow (Yeah)  
But right now I don't care (Yeah, yeah)

I will probably regret it (Yeah, yeah)

I'm definitely gonna regret it
