

# Sleep Over

Peg Parnevik

I'm going through the list of all the things my sister told me not to say  
Be yourself but not so much that you end up scaring everyone away  
Promise not to fall too hard for a beautiful face  
Take it easy, take it easy, don't you lose your mind, it's just a first date

And you tell me things that I knew  
Shouldn't read that much into you  
Told my family about it too soon  
I always do

And you could sleep over, over  
Before you make me wanna cry  
And wish it was over, over  
Before we even got to try  
And I called, thirteen times  
Said I'm cool but I lied  
Cause I'm scared if you know me it'll change your mind

If I believe in karma would it make my crazy something cute  
Or am I just a sucker hiding who am I and burying the proof  
But if you're not the one, then would you least admit it  
Cause you're dancing round the question like you think I couldn't take a take a little truth

I'm in love and I tell everyone  
Guess that you thought we're just having fun  
So I drink til I'm drunk yeah I'm done  
I'm not having fun

But could you sleep over, over  
Before you make me wanna cry  
And wish it was over, over  
Before we even got to try  
And I called, thirteen times  
Said I'm cool but I lied  
Cause I'm scared if you know me it'll change your mind

And I tried  
But the list of what I hate about myself is small to what I like  
Oh, I tried  
But you hurt me, it's working, it's hurting  
Oh baby, I die  
When it's midnight and I'm at your door and that's the time I realize  
That I tried  
But you hurt me you hurt me you hurt me  
So why do I ask

Do you wanna sleep over, over  
Before you make me wanna cry  
And wish it was over, over  
Before we even got to try  
And I called, thirteen times  
Said I'm cool but I lied  
Cause I'm scared if you know me it'll change your mind  
Cause I'm scared if you know me it'll change your mind  
Cause once you got to know me it'll change your mind
