

# Somewhere Without Me

Peg Parnevik

You pack up your things while I'm away  
Didn't have the guts to say it to my face  
Who will be the one to take my place  
I'm alone while they're celebrating  
Six year anniversary  
Couldn't even make it to the day  
No, I won't ever be the same  
You keep smiling while I'm breaking

And I know you don't like confrontation  
But could we have a conversation?  
I'm in pieces and you barely broke a sweat

I can't believe I'm calling you up  
All the things that you've done  
Sorry, I know you got somewhere to be  
But tell me, did you fall out of love?  
Was I just not the one?  
I know you got somewhere to be  
Somewhere without me  
(Somewhere without me...)

They say, go to bed, go to bed  
The party's over isn't it  
Wake up cry repeat again  
Didn't think I'd end up losing my best friend  
I can't make you love me  
I'm trying, I'm trying so hard  
Thought we were something  
I'm falling, I'm falling apart

And I know you don't like confrontation  
But could we have a conversation?  
I'm in pieces and you barely broke a sweat

No, I can't believe I'm calling you up  
All the things that you've done  
I'm sorry, I know you got somewhere to be  
But tell me, did you fall out of love?  
Was I just not the one?  
I know you got somewhere to be  
Somewhere without me!  
(Somewhere without me...)

But they don't even know you like I do  
Cliche, it's so cliche, but it's true  
Please, don't ever find somebody new  
After all that we've been through  
Hey, I still love you

But you somewhere without me  
Somewhere without me...

I guess that's why I'm calling you up  
Cause I'm still in love  
How could you so easily leave  
Am I still not the one?

Are you still having fun?  
I know you got somewhere to be
