

Another Round

Pegboard Nerds

If I run away, don't judge me
If I get afraid, do love me
I need an escape, this moment
Give me your faith

If I lose my mind, you're with me
Under the lights of this city
Show me a life I'd die for
Give me a sign

Sing in the name of love
Show me the highs and lows
Empty my drunken heart
And pour me another round

And at the end of the night
I know I'm seeing stars
And at the end of the night
So I don't fall apart
We only have right now
So let's go another round
Let's go another round

Let's go another round
Let's go another round

I'll carry you home
If you're crashing, we'll take it slow
In this madness, wherever you go
I promise you're not alone

If I lose my mind, you're with me
Under the lights of this city
Show me a life I'd die for
Give me a sign

Sing in the name of love
Show me the highs and lows
Empty my drunken heart
And pour me another round

And at the end of the night
I know I'm seeing stars
And at the end of the night
So I don't fall apart
We only have right now
So let's go another round

Let's go another round
