Disconnected VIP

Pegboard Nerds

We haven't slept in days
Sitting, reminiscent on the waves
We stay high in the clouds
Promising that we will come down

It feels so good
It feels so true
The only substance I need is you
It feels so nice
It feels so true
Taking every single drop of you

I know our hearts are protected
Never will we be disconnected
I know our hearts are protected
Never will we be disconnected

Disconnected

I know our hearts are protected
Never will we be disconnected
I know our hearts are protected
Never will we be disconnected

Disconnected
Disconnected

Never will we be disconnected

Decisions need to be made
We're leaving all the choices up to fate
We've only just met
But we know there's something deep we can't forget

It feels so good
It feels so true
The only substance I need is you
It feels so right
It feels so true
Taking every single drop of you

I know our hearts are protected
Never will we be disconnected
I know our hearts are protected
Never will we be disconnected

Disconnected
