

Downhearted

Pegboard Nerds

We are wanted
Everything'd be perfect
But life is hard
Sometimes you gotta wonder if it's worth it
I don't know, but I can give you a hope
That won't fade away
So you keep your heart safe

You don't have to be downhearted
Let's return to where we started
You don't have to be downhearted
Cause I will be the one fighting for you
I'm fighting for you
When our love is awake
I will fix your mistake
Downhearted
Downhearted

When the world takes hold
It never lets you go
Through the snow
We got a long way left to go

You don't have to be downhearted
Let's return to where we started
You don't have to be downhearted
Cause I will be the one fighting for you
I'm fighting for you
When our love is awake
I will fix your mistake
Downhearted
Downhearted

When our love is awake
I will fix your mistake
Downhearted
