

Multiverse

Pegboard Nerds

I'm on my way
Coming back
Rain on the streets
I'm running fast

Where are you now
Going in reverse
I'm going through
Through the multiverse

I'm seeing double, double
No more trouble, trouble
I'm seeing you and me
Where we would be

We're sailing through the multiverse
The multiverse
We're looking for ourselves in turn
In the multiverse

You and I
Were so diverse
Wide awake, now we immerse
Into our story
Where we traverse
Stuck down here in the multiverse

Lost here again
I'm trying to find
A helping hand
A mastermind

Where are you now
Going in reverse
I'm going through
Through the multiverse

I'm seeing double, double
No more trouble, trouble
I'm seeing you and me
Where we would be

We're sailing through the multiverse
The multiverse
We're looking for ourselves in turn
In the multiverse

You and I
We're so diverse
Wide awake, now we immerse
Into our story
Where we traverse
Stuck down here in the multiverse
