

Together

Pegboard Nerds

Got a feeling
It burns in my chest
It's growing larger
With every breath I take

When I fight it
I hide it
It takes me down

Yeah I know we created a mess
It's growing bigger with every choice we make

Yeah we're here
We keep coming around

The more it itches
The higher we go
The harder we fall
In and out of love

We should burn those bridges
Never look back
But in the end we lose ourselves again
Together

Together

The energy
It's blacking me out
Being so close to you
I'm paralyzed

So I'm breathing it in
Everything

Oh
The more it itches
The higher we go
The harder we fall
In and out of love

We should burn those bridges
Never look back
But in the end we lose ourselves again
Together

Together
Together

The more it itches
The higher we go
The harder we fall
In and out of love
Together
