

With You

Pegboard Nerds

With you, I'm traveling to another place
You woke the child in me and now I wanna play with you, with you
u, with you, yeah
Traveling at the speed of light
We can go out of sight, yeah, we can go out of sight

When I'm with you, yeah, I'm where I want to be, want to be, want to be
When I'm with you, everything seems to change, oh yeah

When I'm with you, yeah, I'm where I want to be, want to be, want to be
When I'm with you, everything seems to change, oh
When I'm with you, it's where I want to be, want to be, want to be
When I'm with you, I'm never looking back again, oh yeah

You, yeah yeah
Never looking back, never looking back
Never looking back, never looking back
When I'm with you, yeah yeah oh

With you, I'm traveling to another place
You woke the child in me and now I wanna play with you, with you
