

Embrasse-Moi

Peggy Lee

Just one more time before we go
Embrasse moi
With one more kiss, I feel a whirl of love will open wide
A world to welcome lovers
A shelter from the rain
To hold us safe inside
And soothe the lonely pain

If we embrace, just one more time
Perhaps we'll stay here
And find that love is shining bright
All through the night
Don't ask me either how or why
We just weren't meant to say goodbye
But to embrace, encore une fois embrasse moi

I want to feel your fingertips
Lets us enjoy the touch of lips
Your lips on mine, just little sips
Oh kiss me now, kiss me now come to my arms
Before it's gone
This lovely glow, this is too dear
It's much too dear to let it go
For if we never kiss again
We may not feel like this again
We might regret that we have sent all this love away
And we may never want to say we embrasse moi
Encore une fois, embrasse moi
Embrasse moi
