

## Four or Five Times

Peggy Lee

Four or five times, four or five times  
There is delight, doing things right, four or five times  
Maybe you'll sigh, maybe you'll cry  
But if you die, you oughta try four or five times

One two and three times or four five and six times  
Or seven or eight times might do  
Nine ten eleven is better than seven but  
If that's too much try four or five times

Four or five times, just four or five times  
Kiss him and then kiss him again, four or five times  
And tell him that you always are true  
Kiss him and sigh, kissing goodbye, four or five times

Four or five times, ooh, four or five times  
There is delight, doing things right, four or five times  
And maybe you'll sigh, yes, maybe you'll cry  
But if you die, you oughta try four or five times  
Four or five times
