

## In The Name Of Love

Peggy Lee

What burns and glows without flame  
What lives and glows without rain  
What brings a smile that lasts for a little while  
And then makes me cry without shame  
How can you please me then torture and tease me  
And do it in the name of love

Don't you know how to be nice  
You leave me without thinking twice  
You're warm as an oven when you want a little loving  
And then you go from fire to ice  
How can you please me then torture and tease me  
And do it in the name of love

Am I coming, am I going  
Is it raining or snowing  
I got no way of knowing your mind  
You make me rise and fall  
You make me stumble and crawl  
So baby get with it, you might as well admit it  
You don't love your mama at all  
Because how can you tease me then torture and tease me  
And do it in the name of love

Don't make me rise and fall  
Don't make me stumble and crawl  
Don't do it, baby, don't do it in the name of love
