Moments Like This

Peggy Lee

Moments like this make me thrill through and through Careless moments like this close to you Nonchalantly we'd dine and we'd dance Yet my heart seems to melt in your grace

Sweet moments like this with the soft lights aglow Make me long for your kiss though I know I'd be just one of all your affairs
But at moments like this, who cares

I'd be just one of all your affairs But at moments like this, who cares
