

## Once (Ils S'aimaient)

Peggy Lee

Once his lips kissed my lips so sweetly  
Once his heart beat for mine completely  
Once his arms held me as they now hold her

Once I felt every thrill she's feeling  
Once he to set my whole world reeling  
Once I knew all the wonder of his warm love

Once I felt confident as she does  
Loved for life, just the way that she does  
Then one night, I reached out and he was gone

Once his lips kissed my lips so sweetly  
Once his heart beat for mine completely  
Now I long just to have that once, once more

How I long just to have that once, once more
