

Take A Little Time To Smile

Peggy Lee

Take a little time to smile, make a little thing worthwhile
When the moon comes up and the sun goes down
Take a little time to smile
If you think you have a care, you can find them everywhere
They will vanish too like the others do
If you take a little time to smile

Smiles were meant to give away
Give a hundred every day
If you know the good they do
Won't you please just give a few

Try it for a little while, if you wanna live in style
When the moon comes up and the sun goes down
Take a little time to smile

In the morning, in the evening
In the meantime, in-between time
Smile
Take a little time to smile

In a hurry, full of worry
In the meantime, in-between time
Smile
Take a little time to smile

Smiles were meant to give away
Give a hundred every day
If you know the good they do
Won't you please just give a few

Try it for a little while, if you wanna live in style
When the moon comes up and the sun goes down
Just relax love is still around, so smile
Take a little time to smile
