

# The Train Blues

Peggy Lee

Whenever I hear a train whistle blow  
I've got to tell you I feel kind of low  
Unless I've got a ticket and I can ride  
I want to follow the track, I've got a hunger inside

Old steam engine, stay on the track  
Take me there and bring me back  
Love to see those big wheels roll  
Roll all over the country, it's so good for my soul

May have to follow to Alaska  
But you can take me to a north border town  
Maybe he'll go south to Texas  
And he does, train, take me right down

Maybe my baby has a notion  
To live on a traffic isle  
Well you can take me right down to the ocean  
And in Hawaii, I'll see baby smile

Yes train, yes train  
Take me to the east, take me to the west  
Take me to the place my baby loved the best

Engineer, I love to hear that whistle  
Mm train, I love to hear you wail  
Go train, I know my love will be waiting  
Hear now, I can hear the man call

Oh yes train, go train  
Oh my train, mm train  
Yes train, go train  
Mm train, yes train
