

So Long Since I Been Home

Peggy Seeger

Lyin' here in the dark wishin' it was day
Lyin' here in the dark wishin' it was day
Lyin' here in the dark wishin' it was day
So long
So long since I've been home
Oh lord, remember me

In your arms, in your head is where I want to be
In your arms, in your bed is where I want to be
In your arms, in your bed is where I want to be
So long
So long since I've been home
Oh lord, remember me

Open up your window and look towards the sea
Open up your window and look towards the sea
Open up your window and look towards the sea
So long
So long since Ive been home
Oh lord, remember me

Winter's commin' on and the wind is cold and keen

Winter's commin' on and the wind is cold and keen
Winter's commin' on and the wind is cold and keen
So long
So long since Ive been home
Oh lord, remember me

The rabbit has a burrow and the little bird has a tree
The rabbit has a burrow and the little bird has a tree
Everyone has a home, there's no home for me
So long
So long since Ive been home
Oh lord, remember me

Lyin' here in the dark livin' in my dreams
Lyin' here in the dark livin' in my dreams
Lyin' here in the dark livin' in my dreams
So long
So long since I've been home
Oh lord, remember me
