

# Move

Peking Duk

Walk the long way home  
Just to keep you close  
Speak in metaphors  
So you don't know I'm yours

Take, taking my breath  
Heart out of my chest  
You're as good as it gets  
Love, show me what's next

We're not getting any younger baby  
I don't want to spend my whole life waiting  
We could keep talking or we could get naked  
So don't you waste it, it's your move just make it

Eyes communicate  
What your lips won't say  
Got me hypnotized  
Running on a high

Take, taking my breath  
Heart out of my chest  
You're as good as it gets  
Love, show me what's next

We're not getting any younger baby  
I don't want to spend my whole life waiting  
We could keep talking or we could get naked  
So don't you waste it, it's your move just make it

Don't keep your thoughts to yourself  
You're holding back  
Oh I can tell, I don't  
I don't want no one else  
So make your move  
It's only you

Take, taking my breath  
Heart out of my chest  
You're as good as it gets  
Love, show me what's next

Take, taking my breath  
Heart out of my chest  
You're as good as it gets  
Love, show me what's next

We're not getting any younger baby  
I don't want to spend my whole life waiting  
We could keep talking or we could get naked  
So don't you waste it, it's your move just make it

We're not getting any younger baby  
I don't want to spend my whole life waiting  
We could keep talking or we could get naked  
So don't you waste it, it's your move just make it
