

## Bitch Ass

Pell

Shawty act like this rap shit ain't happening  
And the groupies want me in between, like adlibs  
But I don't need no groceries just the bag  
So shorty get the better of my half  
All these rappers be acting no capping  
Wanna build like LEGOs guess they plastic  
Show me real love or get smacked  
Cause I got no time for your bitch ass

Everyone talk love shit  
Til the check bounce, hydraulic  
Spent last winter on Bacchus  
Floating on my old hits  
Gang gang turn crickets  
When the nights cold no windchill  
Been rolling, rolling no windmill  
Tryna stay on top of my light bill  
They say you shouldn't spend it less  
She got it times three  
But I had to hit bodega, cause a nigga got needs  
Could lose it all tomorrow so I'm thankful for the cheese  
And I ain't really tryna borrow got a get it on me  
So if home don't ever see me back yeah  
Just nola my essence is all here  
No matter the chain or car  
Our friendship is all we are  
Don't wait for me to go far  
Go ahead and give me a call yeah

Just hit my phone, hit my phone if you want me  
Don't leave me lone, leave me lone, leave me lonely  
Up in the morning I'm rolling, I'm rolling  
They say we going in, they say we going in  
Just hit my phone, hit my phone if you want me  
Don't let me go 'cause you know that I'm all in  
Bet in the morning I'm rolling and rolling  
But that ain't always, so you can call me

Mama call me like boy don't be cursing  
But these bitches been all on my nerves, yeah  
I just want some time to relax  
Go to Malibu and I might blow the whole pack  
Papa text me like son heard you working  
But don't forget them checks that you deserve yeah  
So tell all of them doubters get back  
Cause you ain't got no time for they bitch ass

I'm chirpin' and chirpin'  
Working and working  
This ain't 9-5 this passion and purpose  
I want it for life  
Wonderful breeze  
Wonderful nights  
Look what I made  
Always see the clearest sunrise  
Out in Cali with the vibes  
If you wanna take a flight

Just hit my phone, hit my phone if you want me  
Don't leave me lone, leave me lone, leave me lonely  
Up in the morning I'm rolling, I'm rolling  
They say we going in, they say we going in  
Just hit my phone, hit my phone if you want me  
Don't let me go 'cause you know that I'm all in  
Bet in the morning I'm rolling and rolling  
But that ain't always, so you can call me

Listen to what I say  
I need more of the love and devotion  
Cause at the end of the day  
I'm stuck inside a wave of emotions

Just hit my phone, hit my phone if you want me  
Don't leave me lone, leave me lone, leave me lonely  
Up in the morning I'm rolling, I'm rolling  
They say we going in, they say we going in  
Just hit my phone, hit my phone if you want me  
Don't let me go 'cause you know that I'm all in  
Bet in the morning I'm rolling and rolling  
But that ain't always, so you can call me
