

# BLISS

Pell

Sunset, sundress, so high I'm blessed to be here  
No stress, I'm not impressed with more  
Simple but I adore it

Life with you is  
Feeling all the rain  
Never running away (never never)  
Never losing face, you don't ever play

It's you unlocked a secret  
To living like you're free-er than now (ohoh)

Baby you're my bliss  
From the moment you first kissed me I knew  
Baby you're my bliss  
So safe in your arms in a world so dark  
I choose you, I choose you  
Baby you're my bliss

If ignorance is bliss then I'm a fool every time we kiss  
Making out in front ya friends, a fiend getting his fix  
Swore your friends engineers, how they all in the mix

Don't wanna say it's good as it gets  
But if this ain't' cloud 9 than the sky ain't shit  
If this a waste of time don't know what time is  
Spend a whole 365 not a moment to miss

You've been looking for somebody not anybody  
Got a ticket to real love and you're invited  
You're good for me like water, hot yoga, or the sauna  
After giving anaconda in the presidential suite  
Now we look like Obama's  
You my lover and a friend we ohana  
It feels like (bliss)

Feeling all the rain  
Never running away (never never)  
Never losing face, you don't ever play

It's you unlocked a secret  
To living like you're free-er than now (ohoh)  
Baby you're my bliss  
From the moment you first kissed me I knew  
Baby you're my bliss  
So safe in your arms in a world so dark  
I choose you, I choose you  
Baby you're my bliss

Baby you're my bliss  
Baby you're my bliss

Yeah
