

Early

Pell

Rollin' the green 'cause I'm tryna get rid of the blues (I'm just)
Shining with yellow I don't even need any jewels (I just)
Follow my plan and I'm workin' until I black out (promise)
Don't have a map but I promise I'll figure it out (I'm just)
Ready for Heaven to see me and show me its face (I'm just)
Grind for a purpose I'm telling my people it's fate (I just)
Follow my plan and I'm workin' until I black out (I just)
I gotta get it so promise I'll figure it out

Don't judge what's on the surface
Up before you wake I gotta get it early
Momma told me slow down, why you in a hurry?
I've been on my way I'm tryna get it early

Don't judge what's on the surface
Up before you wake I gotta get it early
Momma told me slow down, why you in a hurry?
I've been on my way I'm tryna get it early

Oooh, this shit sound like what all them lames gon' sound bite
Sound right at home cause cozy been life
Back home for holidays, people treat me like I'm young Mike
Four nights, we ain't seen no sleep cause death don't come twice
Couple bitter women in my DM's but I'm still nice
I'm not fuckin' with 'em 'cause my baby might get too wild, ooh child
Things got way more easy when I fled south
Politics for weeks and had the city gone live all nights

Don't judge what's on the surface
Up before you wake I gotta get it early
Momma told me slow down, why you in a hurry?
I've been on my way I'm tryna get it early

Don't judge what's on the surface
Up before you wake I gotta get it early
Momma told me slow down, why you in a hurry?
I've been on my way I'm tryna get it early

Don't judge what's on the surface
Up before you wake I gotta get it early
Momma told me slow down, why you in a hurry?
I've been on my way I'm tryna get it early

Don't judge what's on the surface
Up before you wake I gotta get it early
Momma told me slow down, why you in a hurry?
I've been on my way I'm tryna get it early

Don't judge what's on the surface
Up before you wake I gotta get it early
