

Imma do half I'm just tryna move slow  
You could do the rest, for we take it all to go  
Been in here before, 8th time is the charm  
Got a watch on my arm, but the hands look froze  
Take a night trip, til we both just coast  
Take a hit of this let your mind just float  
Paris, New Orleans, Amsterdam, on the road  
Living on the vibes, we don't gotta head home  
Draped up in free clothes  
Leave the worries at the crib, we don't need those  
Love that weed talk  
We got three rolled  
Uber through the city  
Cause u know that we throwed  
Skrt, skrt  
Back to beast mode  
Never, beep beep  
Green lights we keep going  
The feelings on your mind  
Keeps showing  
Just Enjoy the flight

Green Lights  
Good weed  
Just fun  
Get high  
No wings  
No strings

Bout that time of day when he get restless  
Ten steps back bass bump it's still fretless  
How could I be upset in la weather  
She got skin like butter she been a product of heaven  
And I been auto pilot since I met you  
That's no bread down and I still get flewed  
It's a war on anybody that intrude  
Had to fight to allow the blessings to get through

I feel it head to my toes  
From the roof to the floor  
My brain yeah it float  
You know how that go  
Just enjoy the ride

Green Lights  
Good weed  
Just fun  
Let's enjoy the ride  
No strings
