

## Late At Night

Pell

Peeping your aura  
And baby you know that it's golden  
I just wanna see you shine  
Wanna see you shine  
Come by my spot after dark  
And just live in the moment  
As we vibe late at night  
Vibe late at night

I get fireworks from the smile that your mouth disperses  
I've been bout my work but I'll always put you first,  
And I don't know how,  
But I don't need confirmation,  
And we could slow down,  
But we've passed all consternation  
So I don't wanna think bout, I should have a drink about it,  
I don't wanna think about it, I should have a drink about it,  
Had to see the world cloudy, when your presence not around me,  
So I need a little shine, to give my world a little balance,

Peeping your aura  
And baby you know that it's golden  
I just want to see you shine  
Want to see you shine  
Come by my spot after dark  
And just live in the moment  
As we vibe late at night  
Vibe late at night

Vibe tonight  
You give me this feeling  
Every time, still I could rough it up show you what I'm feeling  
Shining so golden  
Shitshitshitining like a diamond  
No-no-no nothing will change it  
Baby this shit ain't the climax  
You wanna go slow  
But fast is how I like it  
But you know that you love it  
So you don't mind compromising  
Now strike a pose  
Like you wearing designer  
I like kicking it with you because you shine the brightest  
Cause you say I'm the illest  
Well I think you the badest  
You're that little light of mine can't nobody else have it  
Now come on! who else you know?  
Make the room light up  
Make the whole place glow  
Insatiable this love is ghost all I gotta do is sit back and watch you glow

Peeping your aura  
And baby you know that it's golden  
I just want to see you shine  
Want to see you shine  
Come by my spot after dark  
And just live in the moment

As we vibe late at night  
Vibe late at night

Take off till we both lost  
Take off till your clothes loss  
Take all your emotions  
I'm waving your oceans  
Young girasol,  
Think I memorized your glow,  
And not even dirt is down to Earth, I glad to see you grow and...  
Time might just run out  
So let's lose all control

Peeping your aura  
And baby you know that it's golden  
I just want to see you shine  
Wanna to see you shine  
Come by my spot after dark  
And just live in the moment  
As we vibe late at night  
Vibe late at night

Vibe late at night  
Vibe late at night
