

## Little Things

Pell

I heard there's beauty in little things  
So let me show a little love  
I heard there's beauty in the little things  
But I'm blinded by what's comfortable  
I heard there's beauty in the little things  
I see them everyday, I see them everyday  
I heard there's beauty in the little things  
That my walls can sing

Man, it feel good to be here  
Put it in my room  
Spillin' out tonsils, flu  
Loathin' and dreamin', I think I'm on shrums  
Makin' things hotter, I'm keepin' my cool

Friday it was jestin' but today I'm on some solo shit  
Chillin' with some witches, feelin' bored and into weegys  
Believe me, miss, every dog has his day  
So I'm workin' all these pruns to get this shit all out my way  
Cliche as the punch-lines, my white friend says  
Not here to segregate, but she help inspire the tape  
I need an Acri9 virgin, feel like swervin' on purpose  
Left the windows rolled down so the odor will surface  
I forgot to get my oil changed, so my motor get murdered  
But I got enough drive to get back to the rehearsal  
People tell me I'm workin', I do this shit for the love  
Like all my work dawgs that believe in the park  
It's boys time, and way out of his mind  
I may have lost my marbles, but I found a good life

I heard there's beauty in little things  
So let me show a little love  
I heard there's beauty in the little things  
But I'm blinded by what's comfortable  
I heard there's beauty in the little things  
I see them everyday, I see them everyday  
I heard there's beauty in the little things  
That my walls can sing
