

Talking N 95 with my nigga M95  
People hide in they mask before they peak out whats inside  
I been swallowing pride  
Blame my hustle for that  
Out here grazing the grass, roll something help me relax  
Stayed at home and started tripping like the weed done came with laces  
Like an overbooked lawyer we don't need no more cases  
Tell em mask on  
Fuck it mask off  
Break the mold with every flow  
Gotta pull this wax off  
For they let me have a piece rather see em all starve  
Used to hate the IRS now we gotta tax y'all  
Audio been dope lemme get these packs off  
The mission never changed break the bank and blast off

You can't run  
Ain't nowhere to hide  
Where to go when there's nowhere to go

If you woulda told me I'd be masked up  
For groceries and gas ups  
I'd probly tell you  
You was out yo fuckkn mind  
Did the math it still don't add up  
I tried decimals and fractions  
Only gained traction the day  
I got on my fuckin grind  
Better check the time  
It's like t minus 30 to dooms day  
My market in the black  
Go dr umar  
Fuck what coons say  
This that super hero  
Super villain era on some crazy shit  
Calling out your racist kin  
And canceling your rapist friends  
Cause who the fuck gone save us  
If don't nobody don't say nun  
We blowin money we saved up  
Cause livin with the pains tough  
But this 400 zip of og  
Make me feel it ain't much  
It get deep as pizza gate  
And reach places we can't touch  
So fuck ice  
Free the kids  
Protect the women  
Trans lives mater  
Long as yo character correct  
I got yo back til the hear after  
For real  
And fuck 12  
Til my functions fail  
Cause clan mask  
Turn badges and riot shields  
What a time to kill

You can't run  
Ain't nowhere to hide  
Where to go when there's nowhere to go
