When you mix me with tequila
We can skip the nice to meet yas
I don't wanna talk babe
I don't wanna get to know you
I just wanna get you closer
I'm calling the shots aye
And if you want it
You could have it
Me and mine we getting ratchet
And we might get problematic tonight
So here's my number
Leave or take it
I don't wanna sit here waitin'
Please don't make it hot
And imma see you at the next spot

And I hope you're not hung up, too long on this one
(Imma see you at the next spot)
If you don't think I won't go, you're wrong on this one
(Imma see you at the next spot)

Ooooh
You took me on a trip the first time I met
Youuuu
Fine in shape baby I just wanna taste that juice
And I know you eat healthy so I bet it's organic
Old soul gotta glow bumping digigable planets
My pants tighten when we grind ya causing literal damage (Grrr)
Twenty five, eight
Three sixty six
Overtime I spent
Looking for a feeling like this, kush rips
Lead me to the path of the flighteous
Met you in the clouds
But you say you heading out, (Ahh)
What a shame, we could parlay on my couch
Why do the bar hop
When I got drinks at the house
You been working working
It's time to wind down
So why find the next spot
When ya need it right now

And I hope you're not hung up, too long on this one
(Imma see you at the next spot)
If you don't think I won't go, you're wrong on this one
(Imma see you at the next spot)

And I hope you're not hung up, too long on this one
(Imma see you at the next spot)
If you don't think I won't go, you're wrong on this one
(Imma see you at the next spot)

Another round I could treat ya
We'll find out if you can keep up
Can't look away when you see us
Might change ya life when you see us

Don't wanna hear nice to meet yas
We'll find out if you can keep up
Can't look away when you see us
Might change ya life when you see us

And I hope you're not hung up, too long on this one
(Imma see you at the next spot)
