Petrichor

Pell

It's been storming for a while, so why not make a splash?
They try to drown us in those puddles, but they know that we gotta fight bac
k
I seen too much to go give up, I know I'm not my past
So rain come cleanse me fast, they can't hold us back

It's that umbrella weather, raining down on me
I've been feeling better, right where I should be
It's that umbrella weather, when it rains it pours
My life's getting better, too good to ignore that pertrichor

I know you smell that (Smell that)
Such a good feeling you should sell that
Make your people wanna, "run tell dat"
It's too good to ignore that petrichor
I know you smell that (Smell that)
Such a good feeling you should sell that
Make your people wanna, "run tell dat"
It's too good to ignore that petrichor

It's been storming for a while, so why not make a splash?
They call me out my name to aggravate me 'cause I'm black
I show them love and give them peace, I know I'm not my past
So rain come cleanse me fast, they can't hold me back (Yeah)

It's that umbrella weather, raining down on me
I've been feeling better, right where I should be
It's that umbrella weather, when it rains it pours
My life's getting better, too good to ignore that pertrichor

I'm elevated thinking
No more blinking
Piece together thoughts, I solved the puzzle in the deep in
Peep into the reefer
You hear it through your speakers
You love it so much, you ask my homie if I'll feature
Say "It's nice to meet ya", but I don't know ya
Gotta ask my brother Micah if he really vouch for ya
Cutting back on smoke 'cause I don't like the paranoia
Plus it's been a natural high since I lived in California
The city on my back (Back)
Working on my upper body
Started counting stacks (Yeah)
Even gotta finer shorty
Out on Fairfax ('Fax)
Done with window shopping, tell the cashier gimme that
I'm not caring what it cost me
Couple perks from my work that a brother do deserve
I don't mind the rain falling if pour out what I'm worth
See them other dudes bawling guess my new shit got 'em cursed
Jumping like ebony square man that's word to Uncle Kurt, shit (Damn I'm bles
sed)

It's that umbrella weather, raining down on me
I've been feeling better, right where I should be
It's that umbrella weather, when it rains it pours
My life's getting better, too good to ignore that pertrichor
