

Pretty Things

Pell

I just need a moment
Tell me when it's time
Let's not complicate it
Say what's on your mind
Cause I wait for it
Yes, I wait for it

Late at night when you call my line
I think about if we could cross that line
Pretty things, pretty things, what I think of
Memories, you and me, what I dream of

Late at night when you call my line
I think about if we could cross that line
Pretty things, pretty things, what I think of
Memories, you and me, what I dream of

Friends said we wouldn't make it
Your mama say's time will tell
Your papa don't take no bullshit
I guess He raised you well
I wait for the night crawl
Cause time moves slow as hell
I will wait for you
Will you call soon?
Ooh Ooh

Late at night when you call my line
I think about if we could cross that line
Pretty things, Pretty things, what I think of
Memories, you and me, what I dream of

Late at night when you call my line
I think about if we could cross that line
Pretty things, Pretty things, what I think of
Memories, you and me, what I dream of

Late at night when you call my line
I think about if we could cross that line
Pretty things, Pretty things, what I think of
Memories, you and me, what I dream of

Late at night when you call my line
I think about if we could cross that line
Pretty things, Pretty things, what I think of
Memories, you and me, what I dream of
