

Rotation

Pell

Focused on the future not the past
But it's feeling like I'm in a rotation
I tell my niggas they don't even know the half
Feeling like I can't explain it
Feel like I'm gone have me an episode
I tried one time just to let it go
Catch me with that glass tryna let it go
Til it's gone
Til it's gone

Tried to tell em do better but they called it hate
So its fuck it gotta show em what they call great
In my kitchen day old pizzas and to go plates
So best believe I'm bout eat if it's high steaks
Best believe my pants creased
Sharp as razor blades
Tryna give em new waves
But they wanna try and crash em
But the surfing on the web
I'm tryna own a lake
Somewhere I got no neighbors
Somewhere I can vegetate
Mississippi muddy waters
Turn to Cali landscape
No cape on this hero
Put a hoodie on I'm straight
Jack
Find where the drum and base at
And a homie that gone match
Conversing bout bags
This the fire that you prolly shouldn't smoke before class
But tell ya teacher who bumping and she'll prolly let you pass
I been at in more than weeks
So I can't let nothing pass
Getting out the circle, won't come back

Focused on the future not the past
But it's feeling like I'm in a rotation
I tell my niggas they don't even know the half
Feeling like I can't explain it
Feel like I'm gone have me an episode
I tried one time just to let it go
Catch me with that glass tryna let it go
Til it's gone
Til it's gone

Take this shit back to the Ville for a minute
That starkvegas if I gotta be specific
PTSD from the campus police
Make you walk with cold feet
When it ain't December
Fake like I was eating
Where that EBT for dinner
I'm just playing but I needed more than my work gimme
Better when my tank on empty
Good reserve like ya civic
Lord just let these niggas feel me

Know I'm speaking to they spirit
Have you ever had, a dream turn nightmare
All because you ain't believe what was right there
In front your eyes, you too focused on somebody else
How I wanna be a doctors couldn't save myself
How I wanna own the bidness couldn't pay myself
Shit could make you lose hope but never blame yourself
Because you never gone succeed if you ain't never fail
That's why a brother feeling high like he ain't never fell
Float on

Focused on the future not the past
But it's feeling like I'm in a rotation
I tell my niggas they don't even know the half
Feeling like I can't explain it
Feel like I'm gone have me an episode
I tried one time just to let it go
Catch me with that glass tryna let it go
Til it's gone
Til it's gone
