

# The Never

Pell

Heard it's the darkest before the dawn  
The calmest before the storm  
My blackness a bullshit magnet  
No wonder these shawtys on  
Wonder where we went wrong?  
Not really, I'm puffing strong  
Tried tactics like counting backwards  
But noticed they not alone  
My gas tank look like supermodels stomachs  
But at least I got the drive  
I could never reach the public  
I used to dream bout lovers  
But dating's bad for my budget  
It's hard enough that I'm heartless  
I sleep on every discussion  
See myself is the meaning  
Get out of everyone's dream  
So influenced by train wreck  
We picking up steam  
It's like "choo choo"  
Reminiscing over bottles  
Breaking down doors that they would never let us through

I seen them dirt roads  
But I ain't scared to walk 'em  
It gets hard to maintain  
When you think that you lost it  
No no no no  
I won't quit  
Cause the journey forever  
But if you can't see  
Follow me to the never  
I seen them dirt roads  
But I ain't scared to walk 'em  
It gets hard to maintain  
When you think that you lost it  
No no no no  
I won't quit  
Cause the journey forever  
But if you can't see  
Follow me to the never

Feel my life's a commercial  
I'm only channeling demons  
I'm needing bills for my bills  
This busload's obviously peakin'  
'Ain't that blind to the bullshit  
I just rather not see it  
Steady wantin' my fix  
But won't admit that I'm tweakin'  
I fell asleep in the deep end  
But now I'm 'floating while dreaming"  
So if you call I won't answer  
And tell you westland's the reason  
People change like the seasons  
But I'm more static than TV's  
And more emphatic than peewee

But really ballin' D3  
See they try to burst my bubble  
I guess I'm not that bub enough  
Heard my shit was proper  
Isolate me from the populus  
Never rock a leopard been myself  
And now they spotted us  
And now them gang bangers sound like swedish house mafia's  
Buyin' real estate but nigga I need my credit  
Ain't talkin' MGK but I'm established on a record  
Who dem shawties break their neck for  
Cause I'm grinding clips on sheckla  
You cross me better beast up  
Send sixteens before the stretcher  
Then I'm gone

I seen them dirt roads  
But I ain't scared to walk 'em  
It gets hard to maintain  
When you think that you lost it  
No no no no  
I won't quit  
Cause the journey forever  
But if you can't see  
Follow me to the never  
I seen them dirt roads  
But I ain't scared to walk 'em  
It gets hard to maintain  
When you think that you lost it  
No no no no  
I won't quit  
Cause the journey forever  
But if you can't see  
Follow me to the never

Full schedule, work a triple double, ballin' on a budget  
Bills comin', call it fast money, gone before I touch it  
Fuck the struggle, nigga imma hustle for my mozzarella  
Sweet 16's tryna rack up to a Quinceañera  
Mic checka, livin check to check like diamond yera bera  
Missin legends teachin niggas lessons over instrumentals  
Never been defeated, they can't beat me, I'm so acapella  
Who better, you better, do better, cause I'm playin' for keeps  
Chasin' my dreams and I'm prayin' for sleep  
I'm lookin for war and the prayin' for peace  
Probably wouldn't last 7 days on me street cause shit, these niggas is weak  
Run with the beats, runnin my team  
Lookin' for beef cause there's nothing to eat  
I'm doin the most cause I'm makin' the least  
I ride for the team and the rest obsolete  
Its just what it is, and you know what I mean  
My youngin' a g, doin' anything, rap for the cheese  
That's just how he is, and I know what it mean  
I feel like his future depending on me  
If I don't make a way, he could be dead by 19  
Yeah, sometimes think I over think, good weed put my mind at ease, set my soul free  
Good trees for a low fee, keep it lowkey, dough flow put a hole key in a 16  
Watch the dome with a rhyme scheme, but that crime king you can play God, but just be warned my niggas blast for me

Yo, you can play God just be warned, man
