Vibrant

Pell

Yo
Yeah, yeah
Right

Ride with the colors inside your conscience
Kissing on my neck like collars (Yeah)
Neon, the lights behind us
Head game, white light, too bright, too bright
Vibrant, the colors explode through silence
Wildin', my mind in sirens (Yeah)
Yellow, the lights behind us
Head game, white light, too bright, too bright

Ooh, it ain't black and white
That cookie make me see colors
I think I may've found my vice
Inside that bubblegum butter
Ain't know I had appetite
Until we shared a couple of 'em
I swear you cool as I thought
I brought a storm to your weather
Rain down on me

My friends told me that you moved on from your ex-man
I could be your next man
Put you on a jet, man
Really, I'm just talking 'bout the realos
I put you on a cloud, like pillows
Just dance to the beat
Out in LA, with a rental
So we can stunt a little
But a I gotta bring it back 'bout three

Ride with the colors inside your conscience
Kissing on my neck like collars (Yeah)
Neon, the lights behind us
Head game, white light, too bright, too bright
Vibrant, the colors explode through silence
Wildin', my mind in sirens (Yeah)
Yellow, the lights behind us
Head game, white light, too bright, too bright

Be on the peons
But we on and gon'
Do it for eons and eons
'Til we gone
Side nigga ain't a plan in my eyes
Girl, you let me turn this ash on your thighs
From the fire that we made last night on the mattress twice
Get a call back
When you want to roll them dice?
Never met her but it is nice
Tell you what you need
I'm just tryna advice
You got
Something innocent
Make me feel adrenaline

Raise my blood pressure from the work we both be putting in
Common sense
I should probably get you out my consciousness
I might just get addicted
That's distracting, but I'm down with it

Ooh, it ain't black and white
That cookie make me see colors
I think I may've found my vice
Inside that bubblegum butter
Ain't know I had appetite
Until we shared a couple of 'em
I swear you cool as I thought
I brought a storm to your weather
Rain down on me

Vibrant, colors inside your conscience
Kissing on my neck like collars
Neon, the lights behind us
Head game, white light, too bright, too bright
Vibrant, the colors explode through silence
Wildin', my mind in sirens
Yellow the lights behind us
Head game, white light, too bright, Too bright

Ride with the colors inside your conscience
Kissing on my neck like collars (Yeah)
Neon, the lights behind us
Head game, white light, too bright, too bright
Vibrant, the colors explode through silence
Wildin', my mind in sirens (Yeah)
Yellow, the lights behind us
Head game, white light, too bright, too bright
Ride with the colors inside your conscience
Kissing on my neck like collars (Yeah)
Neon, the lights behind us
Head game, white light, too bright, too bright
Vibrant, the colors explode through silence
Wildin', my mind in sirens (Yeah)
Yellow, the lights behind us
Head game, white light, too bright, too bright
