

Archangel

Pendulum

Ten minutes till midnight, three degrees, we're outside
And we're alone
We caught a train to nowhere, travel where? I don't care
I'll take you home

(I deserve the fall)
Arms open wide, vampires will let you inside
Ooh-ooh-ooh
(I don't feel alone)
If we're going through hell, you can be my archangel
Ooh-ooh-ooh

Streetlights cap the silence, I can feel the sirens
It's taking hold
I'm slipping slowly into something deeper than you
You're not alone

(I deserve the fall)
Not all my type, I'm feel it coming I'm strong
Ooh-ooh-ooh
(I don't feel alone)
If we're going through hell, you can be my archangel
Ooh-ooh-ooh

Worlds collide, I don't feel you burn
I can feel the end is coming

Coming to war
Back from the dark
Coming home

Worlds collide, I don't feel you burn
I can feel the end is coming
