Pendulum

(Go)

We would go from the emerald verge to the waterfront
Drifting souls, chase these shadows together

Now I'm falling, undone again
And my world becomes alien

(Go)

Oh my god
I feel like the sun is dying
The light is gone, we're moving on
Don't stop 'til you beard the lion
Oh my god
I feel numb and that's how I like it
Against the wall for the curtain call
Bleed out if you can't deny it

Oh my god
Oh my god

So I built this bridge just to watch it burn
Big surprise, we've been drowning forever

Now you're fading like you don't belong
Hope is violent when the day is done

Oh my god
I feel like the sun is dying
The light is gone, we're moving on
Don't stop 'til you beard the lion
Oh my god
I feel numb and that's how I like it
Against the wall for the curtain call
Bleed out if you can't deny it

Oh my god
Oh my god
